

# AI Doctor Fracture Analysis Report

 Date: November 04, 2025

Welcome! This report summarizes detected fracture zones and AI-guided recommendations. Scroll through the pages for detailed analysis and images.

**AI assisted Bone shift and  
Fracture Detector**

# Fracture Detection Summary

Zone	Uncertainty (%)	Shift (mm)	Shape Diff
Fracture Zone 1	40.39	13.92	7.479

## AI Doctor Observations

Fracture Zone 1

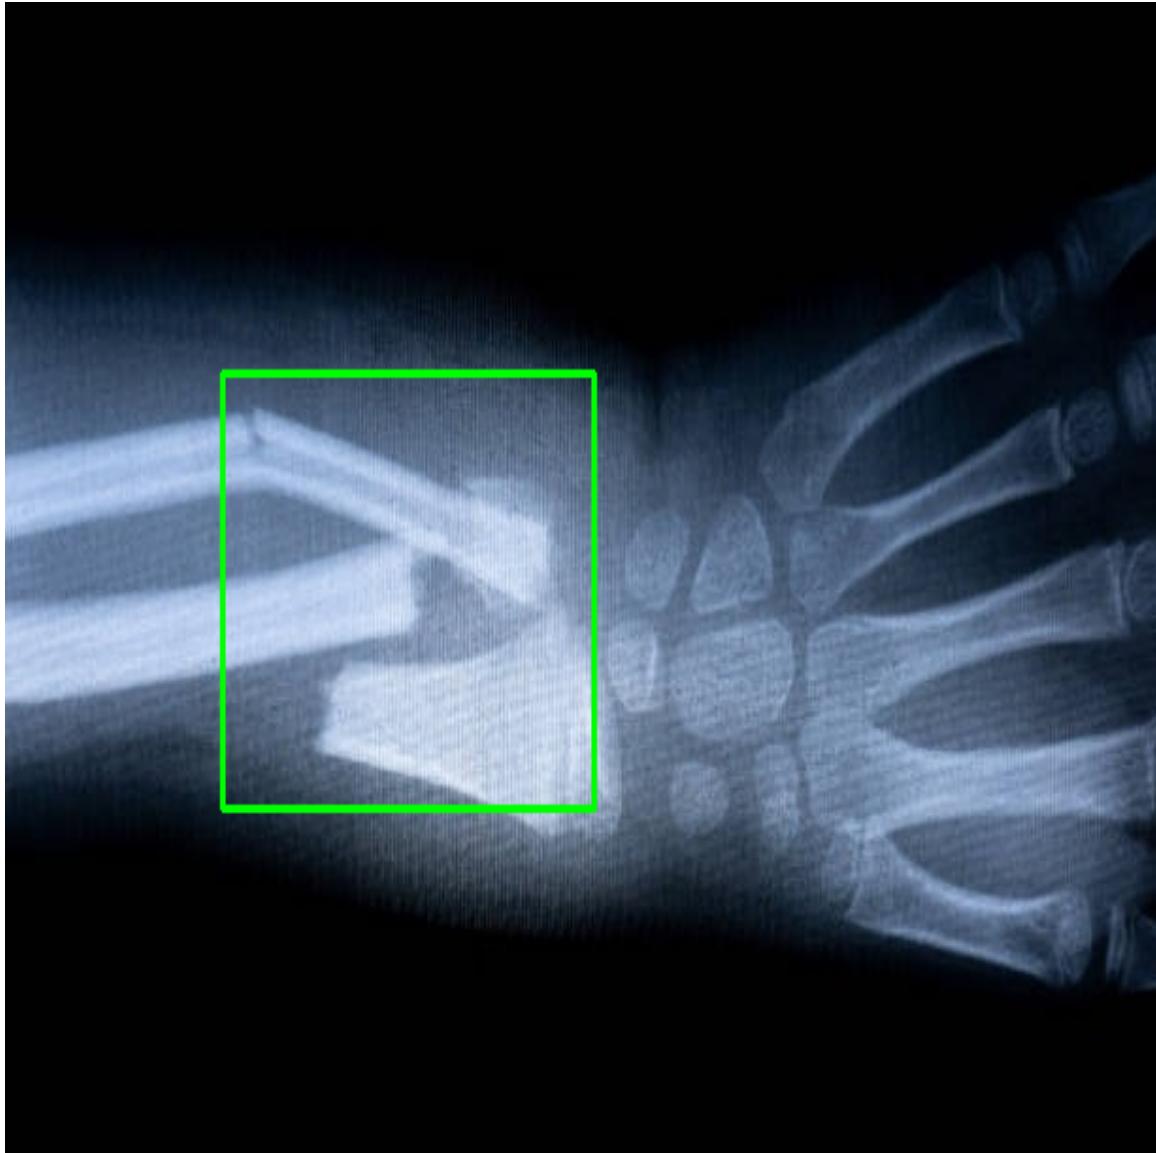

▀ Uncertainty: 40.39% ▲ Shift: 13.92 mm ◇ Shape Diff: 7.479

Fracture Zone 1

- ☒ Severity: △ Moderate to Severe, indicated by significant displacement.
- ☒ Findings: ▲ 13.92mm displacement observed with ☯ 40.39% zone uncertainty.
- ☒ Advice: 📝 Urgent orthopedic consultation recommended for imaging and treatment planning.
- Nutrition Tip: 🥗 Prioritize Calcium, Vitamin D ☀, and Protein 🥐 for optimal bone healing.
- ☒ General Tip: 🛑 Ensure strict rest, avoid weight-bearing as advised, and manage pain effectively.
